An Address From the Independent Re-
publicans of Fort Wayne to
Republican Voters.

The Reason For the Doit.

To Republican Voters:

The independent republican committee of Allen county, believing that the present political crisis is of a nature imperatively to require that every citizen let it be unmistakably known on which side he stands in the conflict, herewith present the reasons which have determined them to oppose the election of James G. Blaine and to favor the election of Grover Cleveland to the office of president of the United States.

We are opposed to the election of Mr. Blaine:

Because the evidence furnished by letters over his own signature and by his own public and solemn statements proves that he has repeatedly used his official position for purposes of private gain. Because by the same evidence he is proved to have uttered repeated falsehoods on the most solemn occasions to escape the consequences of his dishonorable conduct. The proof of these charges is so conclusive as to have caused a revolt from his leadership of 30,000 Republican voters in the state of Massachusetts alone and to have driven from the ranks of the party multitudes of hitherto loyal Republicans in all parts of the country including a host of men with a national reputation for ability and integrity of whom a few representative names are herewith submitted:

Ex-Attorney General James Speed.

Benjamin H. Brewster, ex-secretary of the treasury.

Admiral Porter.

General Doubleday.

In addition to this we might give a list of upward of seventy of the most important papers of the United States which, with one exception, supported Garfield four years ago. They are now all supporting Cleveland and Hendricks. All of these papers supported Mr. Garfield for president.

Of those that are now supporting Mr. Blaine not a few have put on record their conviction of his personal unfitness for office in the following unmistakable terms:

Cincinnati Commercial, June, 1876: "The people of the United States may be somewhat demoralized, but they are not so far gone that it can be presumed they will elect president a man who has been on the make in the subsidized railroads. The Blaine letters we believe prove all that he has been charged with."

It was the Chicago Tribune that said in 1876:

"Blaine voted for or failed to oppose every subsidy of either land or money asked for while he was in congress. The people knew him as a lobbyist before he entered congress, seeking contracts for the supply of arms. They knew him while in congress, and while speaker, as the inside friend of wildest corporations; ruling as speaker to save their bills; and, as claiming reward for his official action, as engaged in selling the worthless bonds of such corporations, receiving gratuities therefor, as confessed in his letters; and, finally, upon pecuniary involvement, getting the Pacific railroad company, as it seems almost certain, to give him \$64,000 cash for what was not worth \$64,000 cash. Is this the record of a reformer? Of a man to purify the administration, and to raise the standard of political and official morality?"

The St. Louis (Globe-Democrat), May 29, 1884: "He (Mr. Blaine) is an unclean man and the people will not have him. He stands convicted of prostituting the high offices he has held to build up a private fortune, of committing with corruption for dishonest money. His record would damn him."

We are further opposed to the election of Blaine because his whole career has been marked by stealth and cunning and by the deliberate choice of underground passages to accomplish his purposes; because we believe that public office is a public trust, and that the maintenance of civil service reform is essential to the welfare and safety of the country. We therefore cannot vote for Mr. Blaine, who in 1875, during his term as speaker of the house of representatives, when called upon to appoint a committee of eleven to report upon the work of the civil service commission, appointed as members thereof nine of the most conspicuous enemies of such reform, among them Benjamin F. Butler and Minister Hurlbut, of Louisiana. Peruvian game fame."

We cannot vote for the man whose lack of statesmanship and love of theatrical display have led him repeatedly to imperil the commercial interests and peace of his country; and by violating well known principles of international law to make our government the laughing stock of the civilized world. As witness his ignorance, though secretary of state, of the provisions of the Clayton-Bulwer treaty regarding the joint rights of the United States and Great Britain in the Guadalupe and the Panama canal; his blustering attitude regarding the boundary between Mexico and Guatemala, and his official recognition of the Calderon government against the earnest protest of Judge Christiancy, our resident minister in Peru; a protest made on the ground that the Calderon government existed only through the sufferance of Chile and would be compelled to leave the country if the Chilean army were withdrawn. The only assignable motive for this recognition seems to be that there might be some government upon which Mr. Blaine might press the payment of the rotten Louisiana Otis claim, which had been declared fraudulent both by the Peruvian and French governments.

We cannot vote for the man who lured the votes of earnest prohibitionists in his own state by the bait of pretended sympathy with their cause, but who on the day of election crept to the polls at a late hour and dodged the issue on the flimsy plea that his vote as a private citizen would make prohibition a national issue.

We cannot vote for the author of the insidious scheme to destroy among the people all sense of responsibility for good government by distributing among the states the revenue derived from the tax on spirituous liquors, a scheme which would give to New York nearly \$5,000,000, and to Maine, a prohibition state, \$1,184,000, thus setting in operation forces that would destroy the government of these states, a force more dangerous than the rebellion, a policy before the operation of which all self-government of the republic would disappear.

We cannot vote for the man who justified repudiation in Virginia by statements which can be excused only on the ground of ignorance, inexcusable in a historian, or of a deliberate falsehood uttered for the purpose of catching votes. (See twenty years in Congress, chapter XXI, latter parts as compared with the constitution of West Virginia.) We oppose the election of Mr. Blaine because we believe that his defeat is necessary to rescue the national government from the grip of the Keifers, the Dorseys, the Elkinses, the Robersons, the Claytons, the Chandelers, the Goulds and the rest of the horde of political adventurers who will bring it to ruin unless their hold be loosened and the election of Mr. Blaine, around whom they swarm, be around their natural chieftain gives no hope of such release.

With a treasury overflowing with the people's money, accumulated by the heavy hand of taxation, during a long period of business depression they have refused to reduce the rates of taxation and Mr. Blaine has ever been foremost in devising ways to expend the surplus, willing to adopt almost any method of disposing of the enormous surplus, rather than reduce taxation and leave the money in the people's pockets where it belongs.

A vote against Mr. Blaine is a vote against Jay Gould, that colossal speculator of modern times and demoralizer of modern business methods, whose influence for bad and only bad upon the young business men of the country has been more pernicious and hurtful than that of any man of our day. It is well known that Mr. Gould and Mr. Blaine are personal as well as political friends, and the saying of Senator Edmunds may be appropriately quoted in this connection:

"It is my deliberate opinion that Mr. Blaine acts as the attorney of Jay Gould in the United States senate. Whenever Mr. Thurman and I have settled upon legislation to bring the Pacific railroad to terms of equity with the government, up has jumped James G. Blaine, muffled in hand, from behind the breastworks of Gould's lobby, to fire in our backs."

In a word we oppose his election because we believe that his political vices are the vices which history proves have ever caused the downfall of states and republics.

We favor the election of Grover Cleveland for president.

Because among men now in public life he preeminently represents the principle which now most needs to be emphasized in this country—that public office is a public trust to be administered not in the interest of party faction or section, but of the whole people.

Because in his hands civil service reform would be safe. It was by his signature that the bill which makes the principles of civil service reform mandatory upon the mayor of every one of the twenty-three incorporated cities of the state of New York, became a law.

He has been one of the surest friends of the reform. He is one of the few democrats who can resist the pressure

of a "hungry and thirsty party" and civil service reform is not fully assured until it has stood through the crisis of a change of party. Now is the time and here is the man to make that change with safety.

Because he stands for the best of the democratic party and Blaine represents the worst of the republican party. Many of the best republicans are against Blaine, to his discredit; many of the worst democrats are against Cleveland, to his credit. And we are not willing to believe that the worst republican is better than the best democrat; that one-half of the American people are all that is bad, or that many republicans can permit themselves to adopt the partisan cry of "Vote for the Evil One, if he is the party candidate."

Because no personal interest or private weakness or political fear has ever affected one of his public acts. He is the best friend of the workmen because he dared to veto bills that were only sham appeals to popular favor, like the Mechanics' lien bill, which only played into the hands of sharks, and the car drivers' bill, which would have cut down wages as well as hours and have done no good. His veto of the elevated railroad fare bill, whether mistaken or not, was a brave stand for what he believed constitutional safeguards, directly against his political opponent. The country needs a man who does not know how to truckle.

Because in every new place and upon every new issue he has shown capacity equal to the task. The sound common sense that gave Abraham Lincoln power and the sturdy political morality that goes with it make him always master of the situation.

Because he is the hero of 140 vetoes by one of which he saved to the taxpayers of the city of Buffalo the enormous sum of \$800,000 and by every one of which he showed an integrity that stands unappalled in the presence of jobbery and corruption.

It will not do for the friends of demagoguism to say of such a man, "he has no record."

Because no Executive will ever execute the people's will, without fear, favor, or personal bias, as represented by congress, in matters, such as those of revenue, especially committed to its hands. He will be the people's president.

Because his foreign policy will be, not bluster and back-down, like Blaine's, but dignified and firm. "We do not claim," said Grover Cleveland, mayor of Buffalo, "to make laws for other countries, but we do insist that whatever those laws may be they shall, in the interest of human freedom and the rights of mankind, so far as they involve the liberty of our citizens, be speedily administered." This would be the spirit of the Administration of Grover Cleveland, President of the United States.

Because his election would be the rebuke of the most threatened vice of our time and country—the spirit of reckless speculation in business and of shameless jobbery in politics. The two are one evil. The election of James G. Blaine would be a direct appeal to every young man to adopt dishonesty and effrontery as the methods of success.

These are some of the reasons which, as it seems to us, justify republicans in supporting a candidate not of their party. The American people must select as president one of two men. We ask all republicans carefully to consider the reasons which we have given for opposing the election of James G. Blaine, corruptionist, and favoring the election of Grover Cleveland, reformer.

Republican Officials Shooting Men Down

Like Dogs—A Heavy Vote
Being Polled.

The Day of Battle.

TOLEDO, Oct. 14.—The weather is clear and cool and the voting is progressing quietly. The indications are that the vote will be the largest ever polled. In six of the eight wards of the city it is estimated that fully one-half of the vote was in before 9 o'clock this morning.

AT CINCINNATI.

CINCINNATI, Oct. 14.—The city is feverish with excitement. Many arrests have been made at the polls for illegal voting and challenging is carried on to a greater extent than ever before. Fights have taken place in several wards, but the worst so far has been in the sixth ward where the Negroes and Irish vote and where early this morning one of Pinkerton's detectives was badly beaten.

A negro known as "Foxy" Anderson was killed this morning in an encounter with a deputy marshal. The report came from the fifteenth ward that the deputy marshals had overpowered the deputy sheriffs and were refusing to allow any negroes to vote. The United States marshal sent an additional number of deputy marshals to the scene. The weather is delightfully cool and pleasant and a very large vote has been polled. The men about the polls say there is very little excitement. Everywhere there is great earnestness manifested.

GREAT EXCITEMENT AT CINCINNATI.

CINCINNATI, Oct. 14.—It was remarked by Judge Kelly, of Pennsylvania, after canvassing the state, that he had never seen such intense interest manifested in politics since 1840. All reports received up to this hour indicate that this intensity of feeling continues. An enormous vote is being polled and each party is striving not only to get in all the votes, but to get them in early.

The polls are being closely watched, the deputy sheriffs and police representing the democrats and the deputy United States marshals and citizen's committee the republicans. A large number of repeaters have already been arrested by the deputy marshals. They are being guarded in the government building. A number of these were brought in a patrol wagon by the police, which added to the excitement.

There has been considerable shooting in the Sixth, Eighth, Eighteenth and Nineteenth wards. In the latter a deputy marshal shot a deputy sheriff in the head, causing a severe but not fatal wound. In the Eighteenth, democratic ward there is great excitement because of the large number of republican votes being polled. The citizens of Glendale report that early this morning a large number of Irish voted the republican ticket.

While the ticket to be voted is state, local and congressional the issue is national for the reason above stated, hence the vote will be large. It will probably reach 800,000 in aggregate. The state candidates are: Secretary of state, judge of supreme court and board of public works. The democratic candidate for secretary of state is the present incumbent, Mr. Newman. The republican, Gen. J. S. Robinson, who at present represents the Marietta district in congress. Only scattering returns need be expected tonight but these will indicate the drift.

DAMNABLE WORK OF DEPUTY MARSHALS.

CINCINNATI, Oct. 14.—In the United States court room Commissioners Harper and Probosc have already committed twenty-seven men charged with illegal voting. Shortly before noon, Al. Russell, in the Eighth ward, who had been flourishing a pistol about in the vicinity of the polls, was shot by a colored deputy marshal and died instantly. At noon the poll was proceeding quietly in nearly all the wards. There is a large crowd about the United States government building, attracted by curiosity and by the almost constant arrival of men arrested for illegal voting.

OVERHURD WITH REPEATERS.

At 2:30 the city continues to be fairly quiet. Nearly a hundred men have been brought before the United States commissioners for alleged illegal voting and have been jailed or released on bail. Habeas corpus proceedings are used in some instances to get them out of jail. Arrests are also made by the police and deputy sheriffs and the same course pursued to release their prisoners. There has been no general disturbance since the rush at the Eighth ward polls and confidence is growing that the day may pass peacefully, still there are fears of violence about the time of closing the polls at 6 p. m. Indications point rather

to peace. It is evident that the vote will be the largest ever cast. Similar reports continue to come from outside points.

AT COLUMBUS.

COLUMBUS, Oct. 14.—The weather is bright and clear to-day, with a cool breeze, and everything is favorable for a full vote, which is being polled. No disturbance of consequence has been reported in this city beyond the arrest of a few strangers trying to vote and others for disorderly conduct.

CLEVELAND.

CLEVELAND, Oct. 14.—The weather throughout the western reserve is beautiful. The indications are that a very large vote will be polled. No unusual excitement. Both sides are working earnestly.

REPUBLICANS GAIN IN THE WESTERN RESERVE.

Business is almost entirely suspended and the business men are at the polls taking an active part in the work. The vote will probably be the heaviest ever cast in the city. There has been three or four arrests of repeaters, otherwise it is very quiet, though the interest is great. Reports from towns in the western reserve indicate republican gains.

THE WEATHER FAVORABLE TO REPUBLICANS.

COLUMBUS, Ohio, Oct. 14.—From indications and information received at the headquarters of the republican committee it is estimated that at least three-fourths of the vote in the city was polled by noon. The weather is considered favorable to Republicans in the rural districts.

A FULL VOTE.

COSHOCTON, Ohio, Oct. 14.—The vote to-day will probably be the heaviest ever known in this city. At noon the vote already polled was more than four-fifths of the largest ever polled.

THE AKRON BATTLE FIELD.

AKRON, Ohio, Oct. 1.—The election is progressing quietly, a very large vote being polled. The excitement is less than common. Interest centers on McKinley and Paige in the congressional fight. The probabilities are favorable to McKinley's election.

IN WEST VIRGINIA.

WHEELING, Oct. 14.—The election to-day is for a governor and a full list of state officers and legislature. The question of taxation by the dominant party and the course of the supreme court in the *Intelligencer's* contemptuous are the chief state issues. The campaign has been an unusual one in this state. The weather is fine and a very heavy vote is being polled in the towns. This city polled three-fourths of its usual vote by 10 o'clock. Both sides claim gains. Nothing definite.

GOVERNOR CLEVELAND UNCONCERNED.

ALBANY, Oct. 14.—Governor Cleveland was busy at his desk as usual this morning and while he no doubt felt considerable interest in the result of the ballot in progress in Ohio. He gave no outward evidence of it. He has completed his preparations for the New York trip, leaving here to-morrow morning at 6:30 on the St. Louis express and arriving at New York at 10:30 a. m.

Senator Bayard's Opinion.

United States Senator Thomas A. Bayard, of Delaware, was in the city this afternoon for a few moments, en route from Chicago, where he spoke to an immense assembly last night. Senator Bayard told *The Sentinel* representative that with a fair election the democrats would carry Ohio. He likewise hopes for democratic success in Illinois, the prospects for which are now flattering.

The Jeffersonians at Toledo.

The Jeffersonian club, upon an invitation from the democratic clubs of Toledo paid that city a second visit last evening. Over 200 hundred members reported to the call and the showing was even more gorgeous than on their former visit. On their arrival they were escorted to the Second ward headquarters to receive orders for the evening's celebration. At 8 o'clock, with the Jeffersonians at the head, the procession formed on Summit street and marched through the principal streets of the city. All along the line of march, bright lights were displayed, residences illuminated and the walks crowded with people. Over 4,000 were in line, the largest demonstration ever attempted in that city.

TUESDAY, OCT. 14, 1884.

OFFICIAL PAPER COUNTY AND CITY.

HOW DO THE COUNTRY PEOPLE LIKE THIS?

From the Fort Wayne Gazette (republican) October 8, 1884: "Some of the country magwumps tried to ape the Jeffersonians and had broomsticks sawed off for canes, old hats and dirty flannel baggies."

If all the Blaine bolters are dudes there seems to be a panicky desire on the part of the people to swell the ranks of dudism.

It was said of Garfield that his poverty was an indication of his purity. Such remarks are now out of fashion in republican circles.

Why does not the Gazette deny that the late President Garfield was a member of the Cobden club? Perhaps it's too "slushy."

H. B. CHAFFIN, the greatest dry goods merchant in New York, and heretofore a leading republican, is now supporting Cleveland and Hendricks.

MR. BLAINE: I HAVE ARRIVED in America. Look out for bombs.

Yours in the work,
DANIEL McSWENEY.

The Blaine party is now known as the salvation army. They seem to be gathering converts about as rapidly as their illustrious predecessors of the same name.

"ALTHOUGH he had the last say," Logan came out of his "scrimmage" with Hendricks at Cincinnati looking as though he had been through a threshing machine."—Cincinnati Enquirer.

LOGAN split in a man's face the other day because the man called him a rebel. If Mr. Logan undertakes to spit in every man's face who has called him a rebel, he had better buy a package of fresh fine-cut.

On the first page of THE SENTINEL to-day will be found an address to republicans issued by the independent republicans of this city. To the matter which it contains we invite the careful scrutiny of all men.

EVERETT P. WHEELER, the counsel for the civil service reform association of New York, has written President Arthur demanding that the charges against Mr. Dudley of abandoning his office and the issuing of an order to advance pension claims in certain states out of their regular order, be investigated. For having done this the highly intelligent republican sheets call him a "magwump." This is supposed to be on a par with the campaign "dude."

The republican organs cannot agree on the majority Ohio is to give their ticket to-day. All assert that the state will go republican, but the amount or size of the majority is in dispute. Some aver that it will be 8,000, some 12,000, the Gazette puts it at 15,000 and others range up to 25,000. This want of harmony is certainly surprising in a state which has given a republican candidate more than 58,000. That was in the days of long ago, however.

When James G. Blaine entered congress the assessed value of his property in Augusta, Me., was as follows:

House and lot occupied by him.....	750
Other property, debts due, etc.....	1,000
Total value of property on entering congress.....	1,750
His real estate in Augusta is now valued at.....	50,000
His house and furniture at Washington are now worth, at a low estimate.....	100,000
His other property is estimated at (at least).....	1,000,000

Is there a man who is a believer in honesty, and who practices what he preaches, that truly believes that Blaine could acquire wealth so rapidly in an honorable manner?

Among the many statements circulated by the republican press is one that the Mormon church had contributed to the election of Governor Cleveland. This, like all the other campaign stories concocted by republicans in their desperation, has been proven false. A special dispatch from Salt Lake, Utah, says that President John S. Taylor and George Q. Cannon repudiate the statement made in this regard. "They assert that nothing of the kind in any form has any existence or foundation whatever in fact, and that the dispatch referred to has been manufactured for electioneering and prejudicial purposes." Now what next?

JAMES G. BLAINE in his paper the Keuebeck Journal, April 18, 1885, in an article on Archbishop Hughes in reference to the Ecclesiastical title bill said: "The bill will compel the mighty Archbishop to disgorge his ill-acquired wealth. It will act, we hope, as the first step toward leading papists to a sense of the delusion under which they labor and of the errors in which they believe. Archbishop Hughes, who rules the destinies of the catholic hierarchy in the Empire state, is a bold unscrupulous man and his machinations and plottings have given him a disgraceful prominence in all the struggles that have taken place between the corrupt clergy on the one hand and the rights of the superstitious and ignorant laity on the other."

Vorn right on congressmen, they make the laws. Wicked taxes have done more evil in this country, robbed more tolls, brought pallor to more cheeks and equal to more homes, generated more class jealousy and danger to the republic, fed more corruption and excited more appetite for corruption than any one cause. As you love the republic and have hope in its future, vote for congressmen who will see to it that this cancerous wrong is righted, and, as you love your home, defend it like a man against the grasping hand of tariff monopolists. Shame on the man who lets himself be robbed and remains like a lairb dumb before his shears.

TO-DAY is a memorable day in Ohio, a sister state. It is the day of battle. The great political parties are striving for supremacy. The republicans aided by the presence of their leaders, by government officials, by a large amount of money and by the presence of a large number of imported voters find steadily facing them an undivided democracy calling upon the people to do their single duty. It is an unequal contest and democrats will have good reason to rejoice if the majority falls below that given in October, 1880, which is the only fair comparison to be made. Do not be lulled in the hope for victory, but there is hope that the majority may be kept below that given Garfield. If it falls below this there is every reason for encouragement to the democratic hosts. The right will prevail.

BLAINE'S circling canvass of the country is without a parallel in many respects. He travels in all the magnificence of a king, attended by his retinue of servants and surrounded by his friends. His car is said to be fitted in magnificent style and his every want is supplied. He lives in proportion to the capacity of his purse. Never has the elegance and comfort of this hippodrome journey been surpassed in style and equipment. Want is now unknown to Mr. Blaine. His palace car swings from point to point and he lolls about in the enjoyment of all the comforts which wealth can procure. And from this same car he speaks to the people advising them how to vote. From this car he addresses the millionaire, his equal in length of purse string, and from the same platform he looks into the faces of toiling men and women, who in spite of their utmost exertions are scarcely able to keep the wolf from the door, and he appeals to them for support in this political battle. He expresses sympathy for their misfortune when he himself is reveling in comfort and luxury. He looks upon their hovel, called home, when he owns the finest residence in Washington. He asks their allegiance and their aid when he counts his wealth by the millions and his hearers there by the pence. He asserts that a high protective tariff is a protection to the country and his life proves that he at least has been protected, while his hearers, whose pinched faces and heads made prematurely gray by the severe work fastened upon them, have contributed to his prosperity. He promises them better times when he, perhaps of all the crowd surrounding him, has reaped more of the fruits of their industry. He points with the old accustomed pride to the bright galaxy of names which have honored the position he covets, but not one of whom ever stooped to the practices which he has used to gain him wealth. And this is the man who is roaming all over this land, telling of its beauty, of the intelligence of its people, that he may gain a position he has so long sought and which would be a reproach upon the good name of America if he should ever occupy. Blaine is corrupt, he has used his position in a dishonorable way to acquire wealth and he has uttered falsehood after falsehood to cover his tracks. Such is the man to-day begging to be exalted to the chief office in the gift of the people.

In hundred of instances where Hot Springs and other treatment failed to cure scrofula and syphilitic disorders, the sufferer has sought and found a cure in Dr. Guyssot's Yellow Dock and Sarsaparilla. It enriches the blood, strengthens the urinary and digestive organs and quickly removes all indications of ill health and blood disease, from a pimple to a running sore, from a headache to a rheumatic pain. Its superiority over all other blood purifiers and strengthening medicines is admitted by all who test its curative effect and influence.

The October crop report of Michigan to be issued to-morrow reports acres threshed 317,691, with a yield of 4,738,593 bushels.

VICTORIA PILLS

The great English Remedy for Malaria, Chills and Fever, Acute Biliousness, Headache, Indigestion, Constipation, Dyspepsia, Liver Troubles, etc. It is a powerful tonic for the system. It is a powerful tonic for the system.

THE TARIFF AND WAGES.

If a high protective tariff brings high wages, and a low tariff, or free trade, brings low wages, will some protectionist please answer these questions:

Why is it that the wages of strippers and grinders in English cotton-mills, producing a medium quality of goods, in 1850, after what The Irish World calls five centuries of protection, amounted to the princely sum of \$2.50 per week of sixty hours?

Why is it that the wages of minders in the same mills, in 1850, after five hundred years of protection, amounted to no more than \$3.94 per week?

Why is it that in thirty-three years of free trade, from 1850 to 1883, the wages of the men just mentioned increased 100 per cent., the hours of labor being reduced to fifty-six per week at the same time?

Since 1789 there has been a duty on coal ranging from 50 cents to \$2.80 per ton; since 1872 it has been 75 cents per ton on bituminous coal. Why is it, Mr. Protectionist, that the wages of miners of soft coal in the United States fell from \$1.24 per ton in 1870 to 70 cents per ton in 1880, and to 50 cents per ton in 1884?

Why is it that the wages of coal-miners in free-trade England increased 43 per cent. under free trade?

Why is it that wages of builders in free-trade England increased 39 per cent. under free-trade?

Why is it that wages are higher in free-trade England than in high-tariff Germany?

Why is it that the average wages of employes in boot and shoe factories in the United States fell from 52 cents for each pair made in 1870 to 35 cents in 1880?

Why is it that the wages of cotton-factory hands in the United States decreased 18 per cent. from 1870 to 1880? The tariff on sugar is from 1 cent to 31 cents per pound. Why is it that the men working on sugar plantations in this country receive only 65 cents per day?

Why is it that the wages of some of the Cambria iron-works, Pennsylvania, are reduced to 81 cents per day?

The Terrible Brain Which scrofula has upon the system must be arrested, and the blood must be purified, or serious consequences will ensue. For purifying and vitalizing effects, Hood's Sarsaparilla has been found superior to any other preparation. It expels every trace of impurity from the blood and bestows new life and vigor upon every function of the body, enabling it to entirely overcome disease.

The Canadian government has increased the reward for information leading to the conviction of the authors of Saturday's outrage at Quebec to \$4,000, to which \$500 has been added.

cans, he has acted the part of an honor-
able man. He enters to none of the de-
grading elements, but if by legitimate
means he can convert a man to his way
of thinking he does so. This is Mr.
King's office.

BUTLER INSANE.

Physicians Examine the Brain of the Mur-
derer and Find the Sphenoid Bone
Decaying in the Delicate
Substance.

Last Sunday, at Columbus, Ohio,
quite a number of physicians, at the re-
quest of Dr. G. W. Butler, father of
Charles W. Butler, who was hanged at
Columbia City, Ind., on Friday, made
an examination of the dead man's skull
and brain. His skull was sawed open
and they found about two-thirds of the
sphenoid bone, lying at the base of the
brain destroyed and decayed. The two
middle lobes of the brain, lying di-
rectly over this bone, were almost to-
tally destroyed, as if by softening, and
the entire coating of the brain was ad-
herent to the lining of the skull. It is
thought that destruction of the brain
was caused by severe concussions, or
may have been syphilis. It was the
opinion of most physicians that the ex-
amination furnished enough to sustain
the theory of insanity, which was urged
by the defense, and several expressed
surprise that the deceased could have
lived with such a diseased brain. Dr.
Butler now claims that his son was the
victim of a stubborn jury.

The Standard club, comprising our
foremost Hebrews, had one of the most
enjoyable affairs last night at their pa-
rlors in the Mill block. The object of
the club is for the purpose of giving en-
tertainments, socials and literary ex-
ercises, and they have the most suitable
hall and parlors for such purposes in the
city. Some forty members and their
ladies were present last night, it being
the opening night of the season. Danc-
ing was the principal feature of the
evening. At 11 o'clock they repaired to
their dining hall, where a table was laden
with all the substantial and delicious
of the season, which was a credit to Mrs.
Hersh, their entertainer. After satisfying
the inner man speeches followed, and
the dancing continued until the "wee
sun" hours, when all felt elated at hav-
ing one of the most enjoyable nights
since the club's organization.

Correspondence OF THE SENTINEL.

About 110 democrats attended the
rally at Van Wert last Friday night.

Mr. Fowler delivered a very able lec-
ture on our street last Tuesday evening
on prohibition.

About sixty republicans, half of whom
were boys, attended the republican rally
at Van Wert Saturday night. The boys
report having a good time.

The democrats held one of the largest
and most enthusiastic meetings here last
Monday evening at the democratic head-
quarters that ever was held at this place.

The streets were crowded with people
long before 7:30 o'clock, the hour ap-
pointed for the appearance of Hon. W.
B. Myers, of Indianapolis, candidate
for secretary of state. Mr. Myers was
introduced by Mr. J. B. Neizer, presi-
dent of the Cleveland and Hendricks
club, and made a telling speech, one
which did a vast amount of good for the
democratic cause. He urged his hear-
ers to cut out the original proofs of the
Mulligan letters and study out for them-
selves whether James G. Blaine deserves
the highest position in the United States.
He then turned to the tariff question,
which he ably argued. The meeting
was very enthusiastic.

Nervous debility, indicated by loss of
memory, universal lassitude, constant
fatigue, vivid dreaming, unnatural ex-
citements, fits of dizziness, etc., is
quickly cured by using Dr. Guyot's
Yellow Dock and Sarsaparilla. This
remedy purifies the blood, strengthens
the weak portions of the body, quiets
the nerves, produces dreamless slumber,
and is the only remedy that permanently
cures the many distressful ailments re-
sulting from nervous debility.

Maine Heard From!

The Maine question is now answered
as to the most durable shoe for children.

The "little ones" take about twenty
steps to an adult one. It is no surprise
that the restless feet soon kick their way
out.

Parents are in constant trouble about
how to keep their children's feet neatly
clad, unless they belong to the happy
crowd who turn those cares over to W.

H. Fleming who always carries a large
stock in a specialty for children that is
neat, and very durable, in button or lace,
light or heavy, heel or no heel. Seidel

BROWN'S IRON BITTERS

THE BEST TONIC.

PHYSICIANS AND DRUGGISTS RECOMMEND IT.

It is invaluable for Diseases peculiar to Women, and all who lead sedentary lives. It does not injure the stomach, cause headache, or produce constipation—other Iron Medicines do. It enriches and purifies the blood, stimulates the appetite, aids the assimilation of food, relieves heartburn and belching, and strengthens the muscles and nerves.

For Intermittent Fever, Lassitude, Lack of Energy, &c., it has no equal.

The Genuine has above trade mark and crossed red lines on wrapper. Take no other.

Made only by **DR. J. C. F. BROWN**, BALTIMORE, MD.

Old chair banks are now rejuvenated with pretty bits of fancy colored satin and silk in various shapes. Folks who have weak backs and are otherwise debilitated, find strength and comfort in Brown's Iron Bitters, which makes them good as new. This famous iron medicine has worked wonders for the weak and weary. Mrs. E. L. Smith, Whitehall, Mich., says: "I used it with great benefit for stomach and liver complaint and general weakness."

TUESDAY, OCT. 14, 1884.

LOCAL NEWS.

If you have a sore throat, a cough or a cold, try H. B. Douglas & Sons' Cough Drops; they are pleasant to the taste, perfectly harmless and will surely cure you.

Dr. Charles Foster, announced to speak at the Academy to-night, is quite sick and unable to come. The election returns will be read at the headquarters of the democratic central committee, on Main street, as they come from the wires.

Sore joints and muscles are cured by St. Jacobs Oil, the astonishing conqueror of pain.

Henry Blasing and Philip Blasing, the New Haven butchers, have dissolved partnership.

"One hundred doses one dollar" is true only of Hood's Scuraparilla, and it is an unanswerable argument as to strength and economy.

There is quite a large advance sale of seats for "Burr Oaks" to-morrow and Thursday evenings.

To make children healthy use plenty of air, plenty of milk, plenty of sleep, and always have a bottle of Dr. Bull's cough syrup in case of croup.

A big democratic club has been formed in Perry township. Saturday evening they will give P. S. O'Rourke a nice reception.

The blessings of life are many. Live long and be happy. Don't neglect a cough or cold. Keep yourself well clothed in changeable weather, and always keep a bottle of Dr. Wistar's Balsam of Wild Cherry in the household. A single spoonful will cure an ordinary cough or cold. Its continued use will cure consumption.

Henry McClaren was fined this afternoon for provoking his wife, who has also began proceedings for surety of the peace against him.

It is a sorrowful spectacle when a man has abandoned all the pleasures of life, the victim of suffering and disease. Charles Northrop, of Woodmont, Conn., who had been afflicted with rheumatism for years, had made up his mind that he would be obliged to suffer the remainder of his days. He was advised to try Athlaphoras, and now when he has any pain he takes a dose of the great specific, and by this means keeps his enemy at bay and enjoys life.

The Third ward democratic boys have organized a Cleveland and Hendricks club and last night made a splendid parade. The little fellows promptly marched down Calhoun street to the tune of martial music.

Men whose occupation or habits are such as to deprive them of active physical exertion are especially liable to diseases, such as indigestion, dyspepsia, constipation, piles, etc. For all such, Misher's herb bitters may be safely recommended as a sovereign cure. Mr. Hugh Fitzgerald, an attorney of Lincoln, Neb., was a great sufferer from dyspepsia. He had tried all the ordinary remedies without deriving any benefit. A single bottle of Misher's herb bitters wrought an almost instantaneous effect, and its continued use restored him to complete health.

Pierre's Fair keeps the finest assortment of fall and winter millinery ever brought to this city. Their line of hats and bonnets is complete.

Weak Backs.

To the Public.

In answer to an article which appeared in last night's News, charging me with making a malicious and unwarranted attack upon a gentleman and photographer in my article on Chinese prices, which appeared in the Sunday Gazette, October 12, I wish to say that I mentioned no names, but if the shoe fits the gentleman who thinks he has been attacked he is at liberty to wear it. It is not necessary to call the attention of the reading public to the fact that this same gentleman commenced this controversy by misrepresenting facts regarding the durability of \$2 per dozen cabinet photographs, in an article which appeared in the Daily News Saturday evening, October 11. Now, I wish to state that every \$2 per dozen cabinet photograph that I make is warranted to be as permanent and durable as any \$5 or \$10 per dozen photograph made. I came here to stay, have been here eight years and expect to remain eight years longer. I further wish to state that I can always be found at my gallery from 8 a. m. to 7:30 p. m. to wait on, make sittings, show proofs and deliver work to my patrons, who through my rooms daily. Respectfully, M. L. Jones, 14-d&wt 44 Calhoun street.

May Fever.

From Col. J. M. Mather, of New York: "I have suffered severely for the last ten years from May Fever in early and mid-summer and in the fall. I desire in the interest of my fellow sufferers to testify in favor of Ely's Cream Balm. My short use of it demonstrated its efficacy."—J. Mather, 401 Broadway.

I have used Ely's Cream Balm for May Fever, and experienced great relief. I most cordially recommend it as the best of all the many remedies I have tried.—T. B. Jenks, lawyer, Grand Rapids, Mich. Price 50 cts.

The Dispatch with President Arthur and party arrived at Fort Monroe this morning from New York. The president visited the fort and received a salute. He sails for Washington to-night.

A great many lives lost. When a host sinks, a steamer is lost at sea, or a train of cars is thrown from the track, the accident is usually unforeseen, and the sad misfortune is incurred as beyond the power of human calculation. But when lives are lost, on beds of sickness, through inflammations, hemorrhages, burns, piles, sore throats, and all kindred diseases that follow these headings, that a timely application, internally or externally, of Pond's Extract, could have saved, the matter is one of human neglect, that a simple effort can always prevent.

A CARD.—To all who are suffering from errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, free of charge. This great remedy was discovered by a missionary in South America. Send self-addressed envelope to Rev. Joseph T. Linn, Station D, New York. ang12ed&wly
